Notes to Editors:

Myanmar Investments International Limited is the first Myanmar focused investment company to be admitted to trading on the AIM market in London and has been established for the purpose of investing in businesses operating in or with business exposure to Myanmar. The

Company will target businesses operating in sectors that the Directors believe have strong growth potential and thereby can be expected to provide attractive yields, capital gains or both. In addition to investing into local businesses the Company will also partner with foreign companies investing in Myanmar.

Myanmar, a country of approximately 51.4 million people and roughly the size of France, has been diplomatically isolated for much of the last 50 years. Once one of the more prosperous countries in Southeast Asia as it has an abundance of natural resources (oil, natural gas, arable land, tourist attractions and a long coastline), it is now one of the least developed countries in the world and has been the subject of sanctions imposed on it by the EU and the US, amongst others.

The Company's primary objective is to build capital value over the long term by making investments in a diversified portfolio of Myanmar businesses that will benefit from Myanmar's re-emergence.

The Company closed an additional equity fund raising of US\$3.8 million in December 2014.
