Notes to Editors:

Myanmar Investments is the first Myanmar focused investment company to be admitted to trading in London and has been established for the purpose of investing in businesses operating in or with business exposure to Myanmar. The Company will target businesses operating in sectors that the Directors believe have strong growth potential and thereby can be expected to provide attractive yields, capital gains or both. In addition to investing into local businesses the Company will also partner with foreign companies investing in Myanmar.

In August 2014 the Company made its first investment in a microfinance joint venture company as detailed in its announcements on 26 August and 1 September 2014.

Since its Admission in June 2013, when the Company raised US\$6.1 million, it has since raised a further US\$23.7 million.

Myanmar, a country of approximately 51.4 million people and roughly the size of France, has been isolated for much of the last 50 years. Once one of the more prosperous countries in Southeast Asia as it has an abundance of natural resources (oil, natural gas, arable land, tourist

attractions and a long coastline), it is now one of the least developed countries in the world and has been the subject of sanctions imposed on it by the EU and the US, amongst others.

The Company's primary objective is to build capital value over the long term by making investments in a diversified portfolio of Myanmar businesses that will benefit from Myanmar's re-emergence.
